EDUCATION

- **High School Diploma** – CNLR Bistrița, 2020-2024
- **Bachelor's degree** – Faculty of Mathematics and Computer Science, Babeș-Bolyai University

CERTIFICATES

- **IT Competency Certificate** – 12th Grade, 2025
- **English Language Proficiency Certificate** – B2

LANGUAGE SKILLS

ENGLISH	B2
FRENCH	A2
ROMANIAN	Native

SOFT SKILLS

- Strong problem-solving abilities.
- Adaptable to new challenges and environments.
- Critical and analytical thinking.
- Effective communication skills.
- Team-oriented and collaborative mindset.
- Strong sense of discipline.
- Motivated in achieving my goals.

SELECTED PERSONAL PROJECTS

- **Simple Chess Game** (C# with .NET Framework) – Developed a chess game with polished UI and sound effects, inspired by Lichess. [GitHub ↗](#)
- **Shortest Path Algorithm Visualizer** (C# with .NET Framework) – Developed an interactive tool to demonstrate Lee's shortest path algorithm, showcasing algorithm flow and step-by-step pathfinding. [GitHub ↗](#)
- **Obstruction Game** (Python with pygame) – Developed a polished UI version of the Obstruction game featuring an AI that strategically blocks all player moves. [GitHub ↗](#)
- **Snake Game** (C++ with QtCreator & Java with NetBeans) – Developed visually appealing versions of the Snake game in both C++ and Java. [C++ GitHub ↗](#) | [Java GitHub ↗](#)

PROGRAMMING LANGUAGES

- C++, C, C#, Java, Python

OTHER KNOWN DOMAINS

- Software Engineering Principles, Data Structures & Algorithms, Object-Oriented Programming, SQL & Data Manipulation

TOOLS

- React, Qt Creator, .NET Framework, SQL Server / SSMS

WORKSHOPS, CAMPS AND COMPETITIONS

- **Java Programming Camp** – June 2022
 - Learned object-oriented programming and Java syntax through hands-on exercises.
 - Developed small applications and collaborated on mini projects.
- **C# Development Camp** – April 2023
 - Built Windows Forms applications in C#.
 - Improved understanding of OOP principles and UI design.
- **Regional C# Programming Competition** – April 2023 & April 2024
 - Participated in regional coding competitions organized by the "Nouă ne pasă" program.
 - Tackled algorithmic challenges and developed software solutions under time constraints.
